

END U.S. WARS @ HOME & ABROAD - ROC

The Trump administration's ominous nuclear threats on North Korea, escalation of criminal wars in Afghanistan, Syria, Yemen, a coup threat in Venezuela, new threats on Palestine and huge increases in military spending endanger us all.

We face the dangerous growth of white supremacist forces, escalating raids and round ups of migrant workers, increasing homelessness, attacks on the rights of workers and communities of color and slashing of every social program.

The time is now to build unity and return to the streets to make our voices heard!

**Spring Action
2018,
April 13**
