CONSUMER PRICE CHANGES 2022 - 2023

The war in Ukraine and the sanctions on Russia are making it **harder for people to pay their rent**, fill their gas tanks, put food on the table and keep the lights on. Much of the damage is due to the sanctions placed on Russia, a major producer of everything from oil to wheat. The US Federal Reserve admits that the conflict is “pushing up inflation” while slowing down growth.

**To fight inflation we need to end the US’s massive international sanctions regime and demand they stop sending weapons to fuel the Ukraine war, and stop blocking peace negotiations.**

The Wall Street Journal now says: “Gas Prices Poised to Rise Again as Sanctions on Russia Take Effect,” while global

economists say the “massive shock” of the war will produce new “inflationary pressures, sapping confidence and household purchasing power.”

US sanctions on Venezuela and Iran are further impacting the market in oil and gas prices, driving up prices and driving the climate crisis destroying the planet.

It’s clear as ever that the US’s own policies of sanctions, and the proxy war provoked by NATO policies, is directly impacting the cost-of-living crisis for working class people. **Meanwhile the military industrial complex and Wall Street get richer.** This is criminal – the time to act is now!
